Infrared Heater BC 4200 Turbo 2.0

BLUECRAFT®

Information

Dimensions	42 x 72 x 36 cm
Pack size	75.5 x 45.5 x 38.5 cm
Net weight	10 kg
Gross weight	11.5 kg
Catalogue page	547

The BlueCraft BC-4200 Turbo 2.0 gas heater combines three heating technologies in one device, providing maximum flexibility – ideal for workshops, conservatories or living spaces!

1. Electric operation:

For quick heat without a gas connection: the heating power can be adjusted between 750 W and 1500 W. The integrated fan distributes the heat throughout the room, while the 2-stage control allows easy adjustment to your needs.

2. Gas operation with fan (hybrid mode):

In combined operation, the heater uses the full heating power of up to 4200 W and distributes the infrared heat even more efficiently through the switchable fan. Ideal for quickly heating larger rooms.

3. Pure gas operation:

The powerful infrared ceramic burner produces soothing radiant heat entirely without electricity. This quickly warms the room, which is ideal on colder days.

The heater is easy to operate and features a 3-stage control when running on gas. A **gas hose** and a **gas pressure regulator** are already installed and thus **included** in the delivery. The desired power setting can be simply adjusted

Specifications

Operating pressure	50 mbar
Energy efficiency class	A
Colour	black
Gas consumption	305 g/h
Material	sheet steel
Nominal capacity	4.2 kW
Safety pilot	Yes
Ignition system	Piezo ignition

via the easily accessible rotary control. The built-in **piezo ignition**, the **tilt protection**, the **oxygen deficit protection**, the **flame failure device** and the **safety grille** ensure a high level of safety. The infrared ceramic burner provides pleasant radiant heat for maximum comfort due to its high heating output.

Switching on the heater in electric mode is also simple via the control panel switches. The heat from the electric heating element is efficiently distributed by the turbo fan and the 2-stage control. With the help of the 4 sturdy castors, the robust gas heater can be conveniently positioned and offers maximum mobility. This top model can be operated with propane gas or the integrated electric heating if you ever run out of gas.

Gas operation:

- With flame failure device
- With oxygen deficit protection
- With piezo ignition
- With 3-stage control
- With hose and gas pressure regulator
- With safety grille
- With tilt protection

Electric operation:

- With tilt protection
- With fan
- With 2-stage heating power control

Scope of delivery:

- BlueCraft gas heater BC 4200 Turbo 2.0
- Gas hose 50 cm
- Outdoor gas pressure regulator 50 mbar
