Gross weight	7.3 kg

The shady retreat for warm days

The foldable dog lounge is the ideal solution to keep your dog safe, shaded and comfortable on hot days. Be it in the garden, while camping or on the go – your dog enjoys reliable protection from the sun and overheating.

The sturdy steel frame with dark grey powder coating supports dogs up to 80 kg and ensures a secure stance. Despite the generous space, the lounge remains compact, easy to transport and quick to set up and fold down.

The grey pet tent with breathable mesh walls combines protection with pleasant ventilation.

Thoughtful design for fresh air

Two closed sides protect against sun and wind, while two open sides allow optimal air circulation. The roof provides reliable shade and reduces direct sunlight.

Integrated cooling function

The elevated lying surface made of sturdy mesh material consists of two layers. The supplied cooling mat is placed between them. This allows air to circulate all around while your dog lies comfortably cool. The cooling mat is filled with special cooling gel and encased in durable polyester/PVC. It is long-lasting, safe and self-regenerating: as your dog releases
