Item no. 322/824
Manufacturer's no. 9620000243

Solar Panel MT CDS Line, 130 Wp

BÜTTNER DOMETIC

Information

Dimensions	1329 x 530 x 35 mm
Pack size	140 x 64 x 17 cm
Net weight	9 kg
Gross weight	9.9 kg
Catalogue page	596

Thanks to a new type of circuit technology, MT CDS Power Line solar panels are far less sensitive to partial shade than all conventional solar panels. Particularly in the mobile sector, this results in a higher yield when – depending on the location – it cannot be avoided that branches, an attached roof box, the satellite system or an open skylight partially shade the solar panels. CDS panels are equipped with 44 monocrystalline high-performance cells and should always be used in combination with an MPP charge controller for optimum performance. Due to the special and complex assembly process of these solar panels equipped with 44 cell diodes, they are also manufactured in Büttner Dometic's assembly centre in Germany. A robust, all-round aluminium frame protects the cells, which are completely embedded in special safety glass.

Specifications

Short circuit current	7.9 A
No-load voltage	23.7 V
Number of panels	1
Nominal power solar panel(s)	130 Wp
Daily output	570 Wh
Type	MT 130 CDS
