The compact all-rounder for your kitchen is a multi-slicer, vegetable slicer and hand grater in one. With its four interchangeable blades (fine grater, medium grater, coarse grater and cutter), the grater processes fruit and vegetables just as easily as hard cheese, nuts or chocolate. Thanks to the patented Z-Cut grating technology with pre-cutting and two-way function, you can grate or slice food into bite-sized portions particularly easily and with little effort. Simply insert it into the removable food attachment and start grating. Thanks to the integrated finger protection, there is no risk of injury. The removable collection container with its rubberised base ensures stability and better control when grating. The grater is dishwasher-safe and therefore easy to clean.
