

Item no. 323/603

Manufacturer's no. 9620017459

All-In-One Solar System Power Black Line, 2, 300 Wp

BÜTTNER
→DOMETIC

Information

Dimensions	1530x530x66 mm
Pack size	150x63.5x17 cm
Net weight	24 kg
Gross weight	24 kg
Catalogue page	595

Absolute top performance, even under adverse conditions! Power Black Line is in a class of its own. This is ensured by an innovative glass surface combined with 80 high-performance cells – 8 more than the previous Black Line series. Thanks to a special wiring configuration, the 8 additional cells create optimal conditions for the MPPT solar charger. In conjunction with this control technology, Power Black Line solar panels achieve maximum power output – in every climate zone and with minimal space requirements.

- 2 panels in one: 2 x 40 monocrystalline high-performance cells with intelligent wiring
- Less sensitive to partial shading: if one half of the panel is shaded, the other half still delivers half the power.
- 8 additional cells provide higher voltage and greater output power with the MPPT solar charger.
- Up to 25% higher Wp performance than a high-quality Black Line multicell solar panel of the same dimensions.
- Optimal energy yield under all weather conditions thanks to multicell technology.
- Special front glazing for maximum solar yield in unfavourable light conditions.

Specifications

Short circuit current	13.2 A
No-load voltage	27.64 V
Number of panels	2
Nominal power solar panel(s)	300 Wp
Nominal voltage	12 V
Daily output	1040 Wh
Type	MT 150-2 MC

- Waterproof junction box – no moisture can penetrate even at high speeds.
