

Item no. 322/390

Manufacturer's no. SS-SLD-L3200W-KIT

Tank Sensor SuperSense Solid Laser Kit

Information

Dimensions	16.3 x 7.8 x 13.2 cm
Pack size	7.6 x 16.3 x 13.3 cm
Net weight	150 g
Gross weight	350 g

Laser measurement, without mechanical components! For use under adverse conditions, even for diesel tanks.

Accurate level indication for nearly all tanks up to 200 cm in height, easy to install, with integrated Bluetooth for wireless display via app or optionally via cable with a compatible display. The installation is simple and quick, all necessary components are included. Only a power supply of 10 – 30 V DC is required for operation.

Solid sensors have been developed for use under harsh conditions, such as installation on external tanks that are exposed to the environment (e.g. diesel tanks on trucks exposed to rain and other environmental conditions).

- Works with fresh, grey and black water **as well as diesel tanks**
- **Installation from the top of the tank with a clear view to the tank bottom**
- Also suitable for **outdoor installation (IP67)**
- Multiple sensors can be displayed simultaneously via the app
- Remote access possible (sensor must be connected to the app)

Specifications

Colour	black
Nominal voltage	10 – 30 V

- Additional signal output for external displays and panels
