Installation Set for Drinking Water Treatment L (UV/Activated Carbon/Limescale)

goodguards®
 — EINFACH SAUBERES WASSER —

Information

Dimensions	16.5 x 11 x 5.5 cm
Pack size	16 x 10.5 x 5.5 cm
Net weight	300 g
Gross weight	350 g
Catalogue page	423

The Goodguards installation set L provides you with the ideal foundation for comprehensive and reliable drinking water treatment in your motorhome, boat or camping vehicle.

Please note: The set contains only the installation components – Reinguard, Kalkguard and Keimguard are available separately.

With this set, you create the perfect basis to efficiently filter and treat your drinking water. Combined with the separately available filters such as Reinguard (activated carbon filter), Kalkguard (lime protection) and Keimguard (UV disinfection), you achieve optimal protection against microplastics, lime, bacteria and other pollutants.

Your advantages:

- **Complete installation set:** All necessary parts for a quick and uncomplicated installation are included.
- **High-quality components:** Durable and long-lasting, ideal for mobile use.
- **Easy installation:** Thanks to the supplied connections and hose components, installation is straightforward.

Scope of delivery:

- 2 x stainless steel hose clamp
