

Item no. 303/103
Manufacturer's no. 60050

Push-and-Connect Valve Adapter and Quick Coupling, 10 mm, 1/2"-IG

Information

Dimensions	33x95x18 mm
Pack size	9.5x3x3 cm
Net weight	40 g
Gross weight	42 g
Catalogue page	425

Safe, leakproof and efficient

The push-and-connect valve adapter offers precise connection technology for demanding applications. A sophisticated shut-off mechanism with stainless steel springs, robust couplings and multiple O-rings ensures a permanently reliable seal – even at high flow rates.

The quick coupling valves can be securely connected or easily disconnected with just one hand. The optimised flow behaviour additionally ensures safe and efficient use. The adapter is available in various versions and can be individually configured.

Advantages:

- Save time thanks to quick assembly
- Highly safe and leakproof
- Self-locking coupling part
- Simple pre-assembly possible
- Large clear diameter for optimal flow
- Pressure-resistant up to 5 bar
- Ideally matched to LILIE hoses, spring band clamps and connectors

Specifications

Connection	1/2" IG
Size	ø 10 mm
Material	POM polyoxymethylene

- Flow-optimised design

The push-and-connect valve adapter combines safety, efficiency and user-friendliness in one system. With high pressure resistance and optimised flow technology, it is a reliable choice for a wide range of applications in the field of water and hose connections.
