### Versatile, durable and precisely fitted

The **piping loop** is the ideal solution for anyone who wants to use their awning or piping rail flexibly and securely. Manufactured using the latest **3D printing technology** from high-quality, weather-resistant materials, this robust loop provides a secure attachment option for numerous applications in the **camping and outdoor sector**.

### Precisely fitting attachment

Thanks to its precise shape, the loop can be effortlessly slid into standard **7 mm piping rails**. It sits reliably and without play – no slipping or wobbly hold.

### Durable and versatile

The integrated opening allows you to hang up objects weighing up to **15 kg**. Be it a lamp, an organiser, a washing line, tools or a lightweight hanging shelf: with the piping loop, you create a stable attachment exactly where you need it.

### Weatherproof and long-lasting

Made from resilient materials, the loop is UV-resistant, shape-stable and unaffected by rain or temperature fluctuations. This means you benefit from a long service life – even with

### Specifications

|          |                                |
|----------|--------------------------------|
| Colour   | black                          |
| Content  | 2 pieces                       |
| Material | TPU thermoplastic polyurethane |

intensive use.

**Please note:** the maximum load capacity of 15 kg applies with proper installation and evenly distributed force. Dynamic loads (e.g. swinging) should be avoided.

**Features:**

- Suitable for 7 mm piping rails
- Robust attachment loop made from 3D printing material
- Load capacity up to 15 kg
- Quick to install – no tools required
- Versatile use: camping, awning, outdoor kitchen and much more
- Secure fit – no slipping
- Durable, shape-stable and maintenance-free

Be it on a **camping holiday**, at a **festival** or working on a **garden project**: with the piping loop, you can finally use your piping rail as flexibly as everyday life demands. Simply slide it in, hang something up – done!
