All-In-One Solar System CDS Power Line, 2, 260 Wp

BÜTTNER DOMETIC

Information

Dimensions	1449 x 530 x 66 mm
Pack size	140 x 64 x 17 cm
Net weight	26 kg
Gross weight	28.2 kg
Catalogue page	596

These installation sets equipped with CDS solar panels include everything you need. All all-in-one solar systems are supplied with the matching spoiler profiles and a robust roof cable routing. Made of high-quality PUR plastic, these components are safe from harmful UV radiation and also extremely weather-resistant. The solar panels are screwed onto the spoiler profiles. This makes it possible to remove the system at any time when changing vehicles. The bracket itself is glued to the roof with a special adhesive set, which has the advantage that no fastening holes have to be drilled into the roof. Each system is equipped with an MPPT solar controller. These have the latest characteristic curves and can be adjusted to liquid/AGM/gel/LiFePO$_4$ batteries. They also have a second charging output (starter battery) and a connection for the solar remote display (option). For vehicles with EBL base station (Hymer Group vehicles), a suitable connection cable set is also included.

Scope of delivery: CDS solar panels · solar controller MPPT (MTSC330) with temperature sensor and Bluetooth · roof spoiler set incl. accessories · roof cable routing · interior/exterior cable set · cable set for vehicles with EBL base station (Hymer Group) · small parts · installation instructions

Specifications

No-load voltage	23.7 V
Number of panels	2
Nominal power solar panel(s)	260 Wp
Daily output	1140 Wh
Type	MT 260 CDS
