Maximum flexibility during installation!

Accurate level indication for almost all tanks up to 200 cm in height, easy to install, wireless display via app through integrated Bluetooth or optionally via cable with a compatible display. The installation is straightforward and quick, with all necessary components included. Only a power supply of 10 – 30 V DC is required for operation.

- Works with fresh, grey or black water tanks
- **Flexible installation on the tank from above or the side is possible**
- **For installation inside the vehicle**
 - Multiple sensors can be displayed simultaneously with the app
 - Remote access possible (sensor must be connected to the app)
 - Additional signal output for external displays and panels
