## Battery Charger Alternator Charger Plus 1000

ECOFLOW

### Information

|              |                      |
|--------------|----------------------|
| Dimensions   | 27.6 x 18.7 x 3.8 cm |
| Pack size    | 33.5 x 25.5 x 14 cm  |
| Net weight   | 1.7 kg               |
| Gross weight | 5.15 kg              |

With the EcoFlow Alternator Charger Plus 1000, you can charge your power station particularly efficiently while driving – directly via your vehicle's alternator. Thanks to the high charging capacity and the additional 300-W solar input, the system is ideal for self-sufficient camping, vanlife, expeditions, or mobile work use.

The charge booster optimally utilises the energy from the vehicle alternator and enables significantly faster charging than conventional 12-V connections. At the same time, additional solar power can be fed in to make energy supply on the go even more flexible and independent.

### Advantages:

- Powerful charging via the vehicle alternator
- Additional **300 W solar input** for even more energy autonomy
- Ideal for campers, motorhomes, vans and off-road vehicles
- Fast and stable energy supply on the go
- High-quality cables and fuses included
- Easy to install with extensive mounting material
- Compatible with selected EcoFlow power stations

### Flexible energy supply on the go

### Specifications

|                  |             |
|------------------|-------------|
| Colour           | silver      |
| Nominal capacity | 1000 W      |
| Nominal voltage  | 12 V   24 V |

By combining alternator charging and solar input, the EcoFlow Alternator Charger Plus 1000 ensures maximum flexibility when travelling. The power station is efficiently charged while driving, while solar panels can simultaneously supply additional energy. This reduces charging times and increases your independence from the power grid.

The integrated ignition cable enables intelligent control of the charging process and supports safe use in the vehicle.

**Technical highlights:**

The additional 300 W solar input significantly expands the range of applications and makes the charger an especially versatile solution for mobile energy management. Whether you are wild camping, on a long journey or on an outdoor adventures – the EcoFlow Alternator Charger Plus 1000 supports reliable power supply even away from traditional campsites.

**Scope of delivery:**

- EcoFlow Battery Charger Plus 1000
- Alternator input cable with integrated ignition cable (6AWG, 5 m)
- XT150 output cable (12AWG, 1 m)
- 125 A fuse cable (6AWG, 0.2 m)
- Mounting material:
  - ST4.2x4
  - M4x4
  - M4 nut x4
  - M6x1
  - M6 nut x1
- User manual
- Warranty card
