albrecht

Information

Dimensions	10.6x20x10 cm
Pack size	23.5x13.5x11 cm
Net weight	800 g
Gross weight	1.1 kg
Catalogue page	107

The Albrecht DR 114 outdoor radio is indispensable for camping holidays or your next outdoor adventure.

As a solar or crank radio, it can be charged completely independently of electricity. That way, you can listen to music on the go and always be up to date (reception via FM/DAB+/streaming).

But that is not all! You can also use this radio as a torch, a camping light and a power bank – without an external power supply. Whether you are hiking, at the beach or having a picnic, the DR 114 is always the perfect companion. The red anti-mosquito light attracts fewer insects.

The radio is also equipped with a USB-C port and can therefore also be charged at home or in the car. With the integrated SOS alarm function, you can send visual and acoustic emergency calls.

The housing is robust and particularly shock-resistant. It is also waterproof (IPX5).

Functions:

- DAB+/FM radio reception
- Extendable camping lamp with handle in 3 brightness levels

Specifications

Colour	olive green
Material	plastic
