Combustion Chamber Complete

Information

Pack size	35x35x22 cm
Net weight	1 kg
Gross weight	1.31 kg

The Truma combustion chamber, complete for Combi heaters, is an essential spare part for the maintenance and repair of Truma heating systems. You will receive a set that includes all the necessary components for a replacement, including the fuel pipe nozzle, the burner and flat seals as well as the insulation of the combustion chamber. This set is compatible with the Combi D and Combi D 6 E models and ensures that your heater operates safely and efficiently.

Specifications

Suitable for Combi D (E)
