

Item no. 322/786
Manufacturer's no. 20051

Digital Temperature Sensor

REVOLUTION

Information

Dimensions	3 m
Pack size	10x 10x2 cm
Net weight	80 g
Gross weight	80 g
Catalogue page	398

The temperature sensor for the NODE Temp is easy to install. Simply connect it to the WAGO terminals of the NODE Temp. These terminals are equipped with three contact points (V+, Temp and GND) to which the sensor cables are connected. Once the temperature sensors are connected to the NODE Temp, you can place them anywhere in your vehicle or in/on devices. Thanks to the waterproof sensors, it is often also possible to position them outdoors.
